Photography at Work

Photographer **Nathan Harger** shoots the artifacts of heavy industry and urban infrastructure that power our cities, finding art in the everyday. "He's making these banal industrial scenarios actually riveting," says Sarah Hasted, a partner at Hasted Kraeutler gallery, which itself is garnering buzz after its recent show featuring superstar photographer Albert Watson. *December 9–January 29; 537 W. 24th St., 212.627.0006*
